

General Meeting

10-12-21

Animal of the Week: Pink Vent Fish (*Thermarces cerberus*)

- Habitat is near hydrothermal vents in the deep ocean, which can get up to 300 degrees Celsius
- Commonly referred to as an 'eelpout' because of its elongated body and frowns
- Eats crustaceans, snails, and copepods
- Very little known about them because of how inhabitable their habitat is

Opportunities in Zoology!

- Join AZA!
