

Holiday Greetings O' ZSA members,

(attempt to sing to the lovely song "Last Christmas" by Wham)

Last ZSA meeting Olivia gave you some animal facts
but the very next day you, you forgot all of it
Next week, to save you some time
We'll give you a ZSA free week (x2)

once stabbed and twice preyed on
I'd keep your distance, but they're still venomous
tell me, crown-of-thorns starfish, do you still eat coral polyps?
well, it is your food, it doesn't surprise me.

" stop eating corals" I wrapped it up and sent it
with a note saying "you're a menace to society", I meant it
now I know what a fool I've been
but if I saw you now, I know you'd stab me again.

Last ZSA meeting Olivia gave you some animal facts
but the very next day you, you forgot all of it
Next week, to save you some time
We'll give you a ZSA free week (x2)

We give the Crown of thorns starfish an 8/10 because while it may not kill us it can cause awful swelling if we are stung and they can regenerate if they are not totally destroyed. Overall, they would cause a lot of inconvenience in our lives, and during almost finals week that is something we don't want.

Just a reminder that if you were unwilling to read through my solid attempt at a new version of "Last Christmas" (shame on you), there will be no meeting next week. We will start meetings up again next semester on January 11th.

Memes of the week:
