

AHHHHhhhhHHHHHHh,

Today we played a fun game called weird animal behaviors by our own lovely ZSA member Olivia. Congrats to our winner Kyleigh!

The animal of the week is Resplendent Quetzal (*Pharomachrus mocinno*) it is the national bird of Guatemala and is considered divine or sacred in some cultures. We give this bird a 0/10 in reality as we could easily kill it but a 10/10 out of respect for other cultures.

Some fun videos of the Resplendent Quetzal

Opportunities: Join AZA to stay up to date on news in the zoo world and check out the IBIO hands-on database for a lot of great opportunities!

Surprise Shawty! There is no meeting next week due to the wellness days so relax and try to convince yourself it's the same as a normal spring break.

Love,

ZSA E-Board ♥
