

Yo ZSA let's kick it,

Alright stop, collaborate and listen, ZSA is back with a brand new invention. The saltwater croc grabs a hold of me tightly (a force of 3700 pounds per square inch), killing like a harpoon daily and nightly. Will it ever stop? Yo I do know, turn off the lights and I'll die (in the dark). To the extreme they will eat anything like a vandal. Light up the coastal and brackish waters (where it lives) and the croc will wax a chump (you) like a candle.

Dues go rush to the ZSA venmo account that booms (ZSAMSU). (joining) AZA will be filling up your brain like a poisonous mushroom.

Deadly (like your resume will be) when you sign up for KBS internships, courses, and research (due by April 1st). Anything less than your best is a felony.

Love it or leave it you better not touch it (we played would you touch it made by Olivia today). you better hit Nicholas Cage, the kids don't play.

Ice ice ZSA....

word to your croc,

ZSA E-Board

P.S. the E-board gives the saltwater croc a 10000/10 we would be dead
