

Hey all you wet and wild friends,

Today we got to hear about some of our fellow ZSA member's crazy cool summer experiences and learn about the Foureye Butterflyfish (*Chaetodon capistratus*).

The Foureye Butterflyfish is named after the dark spot and white ring on its butt. They can swim upside down and on their sides and if you weren't feeling lonely enough because it's cuffing season they also mate for life and are usually in pairs. We give the foureye butterflyfish a beatability rating of 3/10 while they do live in the ocean giving them the home field advantage (and forcing us to scuba suit up) they are also no match against us. As our lovely ZSA president told me "those little cuties would be curb-stomped instantly".

As a reminder please pay your dues either 20\$/semester or 30\$/year. This money allows us to go on cool trips and field trips throughout the school year. Also like the IRS, we will come after you if we need to but we don't like confrontation so please don't make us do that. Dues can be paid by Venmo @msuzsa or in cash to Dominic at our next meeting.

We did discuss summer experiences tonight and to better get to know what our general body is interested in/ what internship opportunities they want us to share we've created a cheeky little google form for you to fill out here:

We still want ZSA apparel designs so send them in! Otherwise, you will make the E-Board create them and I'm not sure if you want to risk that.

Introducing our play-by-play ZSA meeting minutes!!! If you can't stand my fun emails or you just want to cut the crap and know the weekly info then check out the link below. This will take you to the "real" meeting minutes where you can get all the info from each week's meeting. Huge shout out to Rebecca for creating them each week. Find them here:

Join us next week as we will be having a cool panel of students from across the country talking about their college and research experiences!

swim ya later,

ZSA E-Board
